## Puppy Preschool

*For puppies 7 to 14 weeks:*

As a new puppy owner, learn how to raise a better pet. Whether or not you are training, you are still directing behavior and creating patterns in your dog's life. This period in your dog's life is critical; they begin to form opinions and attitudes that will last their whole life. This course should be started as close to 8 weeks as possible, yet not later than 14 weeks. During the small weekly group sessions, through the guidance of our staff and the participation of other puppy owners, you will learn a great deal about socialization, confidence building, basic problem solving (in areas such as potty training, chewing, biting, digging and barking & different techniques for specific temperaments and personalities), continued education and other owner educational topics. (Examples include grooming and hygiene, first aid and poison control, flea and parasite control, and spaying & neutering.)

**\$125 for 6 week course, 1 hour sessions**

## Puppy Kindergarten

*For puppies 10 weeks to 5 months:*

Through consistent positive reinforcement and praise, your dog will be introduced to the basic commands of sit, down, stay, come, leave it, and loose leash walking. Social and handling skills learned at a young age help puppies grow into well adjusted adults in new situations. The bond of trust and understanding will last a lifetime.

## Adult Obedience – Basic I

*5 months or older:*
